Plumbing Emergency? Clogged pipes? Dripping faucets? Need a new toilet or appliance installed? No matter what the plumbing need, whether installation or emergency services, Herrmann Services is the name Cincinnati residents have trusted since 1968.

We clean up plumbing-related messes and fix the problem at the source, allowing you to get back to your day with a minimum of stress, worry, and anxiety. All it takes is one call, and you'll breathe easier knowing your needs are covered, even when things go awry.

We know that leaky pipes and water heaters, backed-up drains, and overflowing toilets aren't just inconveniences; they can lead to serious damage to your home if not dealt with promptly and accurately.

Our focus is on making sure the problem is fixed the first time, cutting down on future visits, and avoiding costly damage to your home or office. That's why our company is properly bonded, licensed, and insured in the City of Cincinnati, and by the State of Ohio. We've also received OSHA Construction, Safety, and Health certifications, along with numerous certifications from the State of Ohio and the State of Kentucky.

### Herrmann Services Plumbing and Drain Cleaning Services include:

#### **Water & Sewer Line Repair and Replacement**

Herrmann Services does more than just clear out your drains; we can repair or replace water and sewer lines.

#### **Toilet, Faucet and Fixture Repair, Rebuilding and Installation**

For over 40 years, Herrmann Services has been installing and repairing residential and commercial toilets, fixtures, and faucets. We use the highest quality parts available to ensure proper performance and reliability.

#### **Water Heaters**

Herrmann Services offers expert repair and installation of residential and commercial size water heaters, including tankless water heaters. Inquire about our annual inspections or Comfort Club service plans to give your home or business the utmost reliability.

#### **Garbage Disposals**

We offer Whirlaway and Insinkerator disposals with some of the best warranties around town including 5 year, 10 year, and lifetime warranty models.

#### **Drain Cleaning**

Herrmann Services utilizes the most sophisticated equipment available to ensure proper and safe drain cleaning for your home or business. We use video camera inspections to accurately locate where your problems may be, without costly digging or damage to the existing system. Video cameras are used to identify damage or obstructions that inhibit proper flow. The cameras also verify if the obstructions have been properly removed. Video camera inspections can pinpoint problems like these:

- Broken, cracked or collapsed pipe - damaged pipes requiring repair/replacement.
- Blockage - grease buildup or an object is restricting proper flow of the line.
- Corrosion - the pipe has deteriorated or broke, causing sections to collapse.
- Leaking joints - the seals between pipes have broken, allowing water to escape.
- Root infiltration - tree roots have damaged the sewer line, preventing normal cleaning.

#### **Leaks**

Whether it is a pipe leak, faucet leak, tub leak, or toilet leak we can handle anything you throw at us. Our technicians are experts at finding the source of the leak and fixing it right the first time.

#### **We also service:**

- Sump Pumps, Sewage Ejector Pumps, Aerator Pumps, and other Pumps
- Septic System Service, Repairs, and Replacements
- Appliance Hookup
